

Tech Agency Website - Complete Content Structure

1. HERO SECTION

Headline: Ship Your MVP in 28 Days. Scale with AI.

Subheadline: We build custom web platforms and intelligent AI solutions that turn your vision into market-ready products—fast.

CTA Buttons:

- Primary: "Start Your Project" (leads to contact form)
- Secondary: "View Our Work" (scrolls to portfolio)

Visual Elements:

- Animated product dashboard mockups
 - Floating UI elements
 - Particle effects or subtle animations
 - Trust badges: "28-Day Launch • 50+ Products Shipped • AI-Powered"
-

2. SOCIAL PROOF STRIP

Headline: Trusted by founders and teams building the next big thing

Content:

- Logo carousel of 6-8 client companies
 - Stat counters:
 - "50+ MVPs Launched"
 - "95% On-Time Delivery"
 - "28-Day Average Timeline"
-

3. SERVICES SECTION

Headline: Everything You Need to Launch and Scale

Subheadline: From concept to deployment, we handle the technical complexity so you can focus on growth.

Service Card 1: Custom Web Development

Icon: Code/Browser icon

Description: Lightning-fast web applications built for scale. E-commerce platforms, SaaS dashboards, admin panels, and custom web solutions that grow with your business.

Key Features:

- Responsive & mobile-optimized
- Scalable architecture
- Modern tech stack (React, Next.js, Node.js)
- Database design & optimization

CTA: "Explore Web Development"

Service Card 2: AI Chatbots & Assistants

Icon: Chat/Robot icon

Description: Intelligent chatbots that understand context, automate support, and engage customers 24/7. Reduce support costs by 60% while improving satisfaction.

Key Features:

- Custom-trained on your data
- Multi-channel deployment
- Natural language understanding
- CRM & tool integrations

CTA: "Build Your Chatbot"

Service Card 3: AI Automation & Workflows

Icon: Workflow/Lightning icon

Description: Automate repetitive tasks and complex workflows with AI. From data processing to decision-making, we build systems that work while you sleep.

Key Features:

- Process automation
- Document processing & OCR
- Intelligent routing & triggers
- API integrations & custom connectors

CTA: "Automate Your Workflow"

Service Card 4: 28-Day MVP Launch

Icon: Rocket icon

Description: Go from idea to market in just 28 days. Our proven sprint methodology delivers fully-functional MVPs that validate your concept and attract early users.

Key Features:

- Weekly milestone reviews
- Core feature prioritization
- Launch-ready deployment
- Post-launch support included

CTA: "Launch Your MVP"

4. HOW IT WORKS SECTION

Headline: From Concept to Launch in 4 Simple Steps

Visual: Timeline or step-by-step diagram

Step 1: Discovery Call

Timeline: Day 1-2

We dive deep into your vision, goals, and requirements. Together, we map out features, prioritize what matters, and create a clear roadmap.

Deliverable: Project brief & timeline

Step 2: Design & Planning

Timeline: Day 3-7

Our team creates wireframes, technical architecture, and visual designs. You'll see exactly what we're building before a single line of code is written.

Deliverable: Approved designs & tech spec

Step 3: Build & Iterate

Timeline: Day 8-24

Rapid development with weekly check-ins. Watch your product take shape in real-time. We build, you review, we refine.

Deliverable: Working beta version

Step 4: Launch & Support

Timeline: Day 25-28

Final testing, deployment, and training. We ensure a smooth launch and stay with you during the critical first weeks.

Deliverable: Live product + 30-day support

5. TECHNOLOGY STACK SECTION

Headline: Built with Modern, Battle-Tested Technology

Subheadline: We use the tools that power the world's fastest-growing companies.

Tech Categories:

Frontend

React, Next.js, TypeScript, Tailwind CSS, Vue.js

Backend

Node.js, Python, FastAPI, Express, PostgreSQL, MongoDB

AI & ML

OpenAI GPT-4, Anthropic Claude, LangChain, Vector Databases, Custom Models

Infrastructure

AWS, Vercel, Docker, CI/CD, Serverless

Integration

Stripe, Zapier, Slack, CRM APIs, REST & GraphQL

6. CASE STUDIES / PORTFOLIO SECTION

Headline: Products We've Launched

Layout: 3-column grid with hover effects

Project Card Template:

Project Name Brief tagline

Challenge: What problem needed solving

Solution: What we built (2-3 sentences)

Results:

- Metric 1 (e.g., "Launched in 26 days")
- Metric 2 (e.g., "500+ users in first month")
- Metric 3 (e.g., "60% reduction in support tickets")

Tech Used: Tags for technologies

CTA: "View Case Study"

Example Projects to Include:

1. **E-commerce Platform for Sustainable Fashion**
 - Custom storefront with AI-powered recommendations
 2. **SaaS Admin Dashboard for Project Management**
 - Real-time collaboration tools and analytics
 3. **AI Customer Support Chatbot for FinTech**
 - 24/7 automated support handling 80% of inquiries
-

7. WHY CHOOSE US SECTION

Headline: Why Startups and Scaleups Choose Us

Layout: 2-column grid

Speed Without Compromise

We've perfected the 28-day sprint. You get market-ready products without cutting corners on quality, security, or scalability.

AI-First Approach

Every solution we build is enhanced with AI where it matters. Smarter products, better user experiences, and competitive advantages baked in.

Transparent Process

No black boxes. You're involved every step with weekly demos, Slack access to the team, and real-time project tracking.

Post-Launch Partnership

We don't disappear after launch. Every project includes 30 days of support, and we're here when you're ready to scale.

Technical Excellence

Our team has built products for Y Combinator startups, enterprise clients, and everything in between. You're in expert hands.

Fixed Scope, Fixed Price

Know exactly what you're getting and what it costs. No surprise fees, no scope creep, no hourly billing ambiguity.

8. PRICING SECTION

Headline: Transparent Pricing for Every Stage

Subheadline: Choose the package that fits your needs. Scale up as you grow.

Package 1: MVP Launch

Price: Starting at \$12,000

Perfect for: Early-stage startups validating their idea

Includes:

- 28-day delivery
- Core feature set (3-5 features)
- Responsive web application
- Database & backend setup
- Basic admin panel
- 30-day post-launch support

CTA: "Get Started"

Package 2: Full Product

Price: Starting at \$25,000

Perfect for: Established businesses launching new products

Includes:

- 45-day delivery
- Full feature suite (8-12 features)
- Advanced integrations
- AI capabilities included
- Custom design system
- Admin & user dashboards
- 60-day support + training

Popular badge

CTA: "Get Started"

Package 3: Enterprise Solution

Price: Custom Quote

Perfect for: Complex platforms and scaling companies

Includes:

- Custom timeline
- Unlimited features
- Advanced AI automation
- Multi-platform (web + mobile)
- Dedicated team
- Priority support
- SLA guarantees

CTA: "Contact Sales"

Add-Ons Available:

- AI Chatbot Integration: \$3,500
- Custom Automation Workflow: \$2,000/workflow
- Mobile App Development: Custom quote
- Ongoing Maintenance: From \$1,500/month

9. FAQ SECTION

Headline: Frequently Asked Questions

Q: Why 28 days? Can it be faster or slower?

A: Our 28-day sprint is optimized for MVP quality and speed. We can adjust timelines for smaller projects (2 weeks minimum) or more complex builds (6-8 weeks), but 28 days hits the sweet spot for most startups.

Q: What happens if the project isn't done in 28 days?

A: We guarantee delivery. If we miss the deadline due to our side, we continue working at no extra cost. If scope changes from your side, we'll discuss timeline adjustments upfront.

Q: Do you sign NDAs?

A: Absolutely. We sign NDAs before any detailed discussions and treat all client information with strict confidentiality.

Q: What if we need changes after launch?

A: Every project includes 30 days of support for bug fixes and minor adjustments. For new features or major changes, we offer maintenance retainers or project-based pricing.

Q: Can you help us scale after the MVP?

A: Yes! Many of our clients start with an MVP and continue with us for Phase 2, 3, and beyond. We're your long-term technical partner.

Q: Do you provide hosting and maintenance?

A: We can handle deployment to your preferred platform or our recommended stack. Ongoing hosting and maintenance are available as add-on services.

Q: What technologies do you specialize in?

A: We work primarily with modern JavaScript/TypeScript (React, Next.js, Node.js), Python for AI/ML, and cloud infrastructure (AWS, Vercel). We choose the best stack for your specific needs.

Q: Can you integrate with our existing systems?

A: Yes. We're experienced with API integrations, database migrations, and connecting to CRMs, payment processors, and third-party tools.

10. TESTIMONIALS SECTION

Headline: What Our Clients Say

Layout: 3-column testimonial cards with photos

Testimonial Template:

Quote: "[Client testimonial about the experience, results, and working relationship]"

Client Name Title, Company Name

Result highlight: E.g., "Launched in 26 days | 1,000+ users in Month 1"

Example Testimonials:

Testimonial 1: "We went from concept to paying customers in under a month. The team understood our vision immediately and delivered beyond expectations. The AI chatbot alone has saved us 15 hours a week."

Sarah Chen Founder, TechFlow Solutions

Testimonial 2: "Best development partner we've worked with. Clear communication, no surprises, and they actually care about the product's success. Our MVP led directly to seed funding."

Marcus Rodriguez CEO, DataSync Pro

Testimonial 3: "The 28-day sprint model is genius. Weekly demos kept us aligned, and having a working product so quickly let us start getting real user feedback while competitors were still in planning."

Emily Thompson Product Lead, CloudNest

11. CTA SECTION

Headline: Ready to Build Your Product?

Subheadline: Let's turn your idea into reality. Book a free consultation to discuss your project.

CTA Button: "Schedule a Call"

Secondary text: Or email us at hello@[youragency].com

Visual: Calendly embed or contact form

DESIGN NOTES FOR FIGMA

Color Palette Suggestions

- **Primary:** Bold blue or electric purple (innovation, tech)
- **Secondary:** Bright accent color (lime, cyan, coral)
- **Neutral:** Dark mode friendly grays
- **Background:** Dark with gradient overlays or clean white with subtle patterns

Typography

- **Headlines:** Bold, modern sans-serif (Inter, Poppins, Space Grotesk)
- **Body:** Clean, readable (Inter, System UI, SF Pro)
- **Code snippets:** Monospace font (Fira Code, JetBrains Mono)

Visual Style

- Glassmorphism cards
- Gradient overlays
- 3D mockups of dashboards/interfaces
- Animated elements (subtle)
- Modern illustrations or abstract shapes
- Dark mode as default with light mode toggle

Spacing & Layout

- Generous whitespace
- Consistent 8px grid system
- Max content width: 1280px
- Mobile breakpoints: 768px, 1024px, 1440px

Interactive Elements

- Hover states on all cards and buttons
- Smooth transitions (200-300ms)
- Micro-interactions on CTAs
- Progress indicators for multi-step processes
- Cursor effects for premium feel
